

# Your Family Medical History

You can complete the highlighted fields on this form online and then print the form for easy reference. Only text that is visible on the form is printed; scrolled text will not print. Any text you enter into these fields will be cleared when you close the form; you cannot save it.

Health problems sometimes run in the family. That's why it's important to know as much as you can about the health of your birth family. This information can help your doctor provide better care.

Start with what you know, then ask your parents or other relatives for more information. It's a good idea to update this chart every year or so. Take a copy with you every time you see a new doctor so that he or she can keep it in your file.

<b>Family member</b>	<b>Name</b>	<b>Health problems (and approximate age when problem started or occurred)</b>	<b>If no longer living, cause of death (and age at death)</b>
My mother			
My father			
My sisters and brothers			

Family member	Name	Health problems (and approximate age when problem started or occurred)	If no longer living, cause of death (and age at death)
Mother's mother			
Mother's father			
Father's mother			
Father's father			
Others
